

Rainbow Numbers

Choose a number between 1 and 20 and write the numeral and number word on the cloud.

Print pages 3 – 7 on different coloured card and cut out for each student. Fill in the different number representations and glue onto the cloud.

Use page page 8 to cut out and glue on MAB strip, or alternatively students can draw their own MAB blocks.

Rainbow Numbers

Number 17

Number in words seventeen

The activity sheet features a cloud-shaped cutout with the number 17 written in the numeral and 'seventeen' in the number in words section. Below the cloud are five vertical strips representing different number representations for 17:

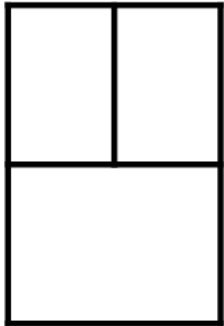

- Tally:** A green strip with three groups of five vertical lines and two individual lines, representing 17.
- Picture:** A blue strip with 17 small butterfly icons arranged in two columns of ten and seven.
- Ten Frame:** A yellow strip with a 2x10 grid. The top row is filled with 10 orange dots, and the bottom row has 7 orange dots in the first seven positions.
- Part Part Whole:** A pink strip with a box divided into three sections. The top left section contains '10', the top right section contains '7', and the bottom section contains '17'.
- MAB:** A purple strip with 17 small white blocks. Ten blocks are stacked vertically on the left, and seven individual blocks are arranged in a row on the right.
