

Fact Family Apple Picking

Aim of the Game

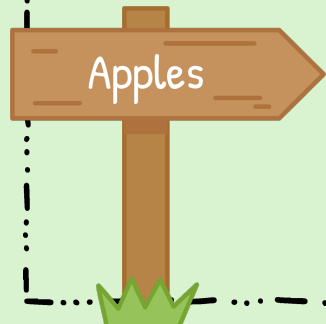

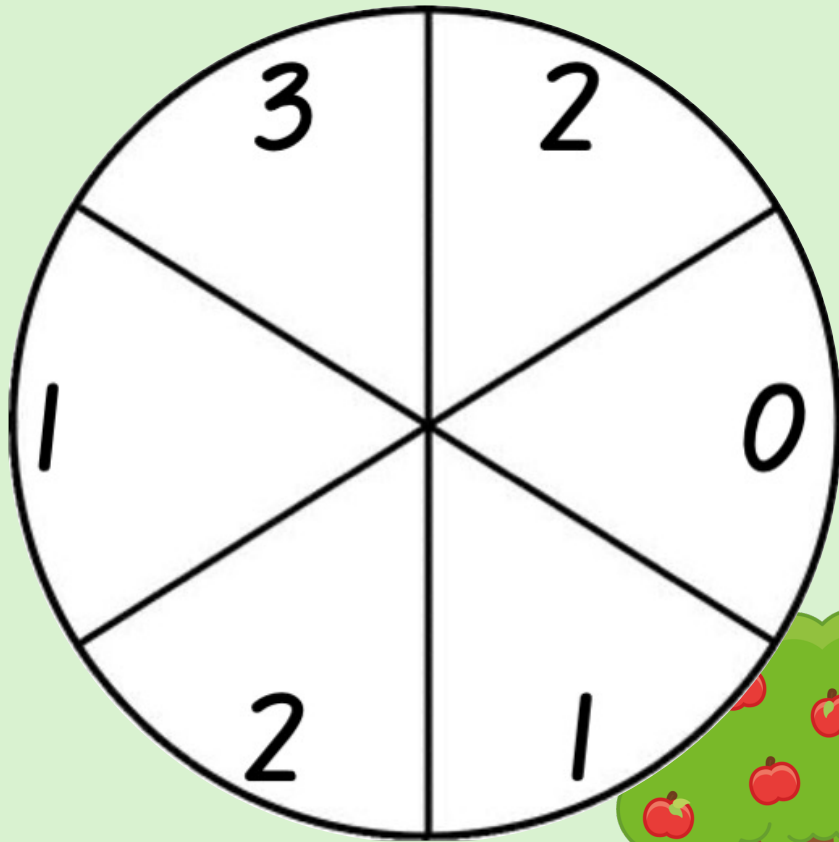

Students need to place the correct number of “apples” to make an apple pie, apple sauce, apple cinnamon doughnut and apple juice. The first player to collect all the apples they need to make their apple dishes is the winner.

How to Play

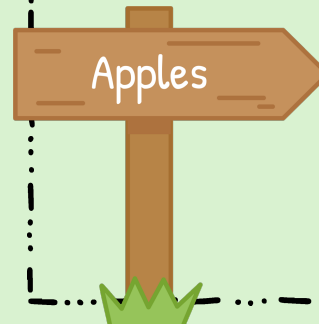

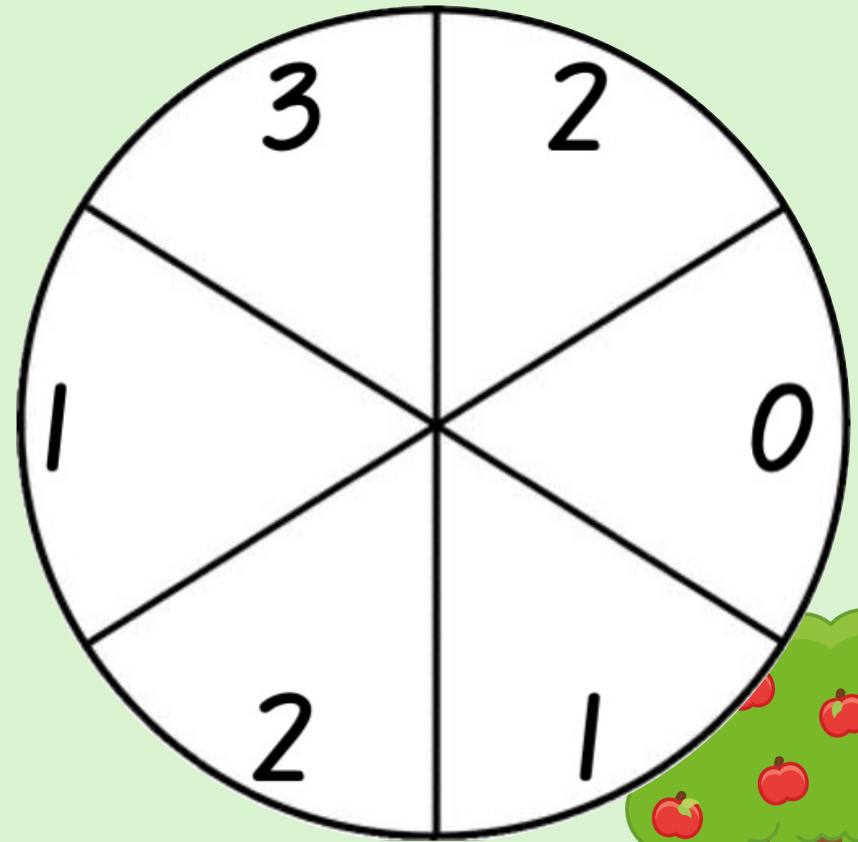

- Give each player a board
- Put a pile of red and green connecting blocks in the middle so each player can reach them (each player will need 15 connecting blocks)
- Players take turns to spin the wheel with a pencil and paper clip or a spinner.
- Players put the given number on their board in any spot.
- Students need to put the right number of apples to complete the given fact family.
