Mystery Box

Print pages 3 – 10 back-to-back to make double sided cards.

The game is played in pairs. Each player has a copy of the Mystery Box score board (page 2) which can be laminated and drawn on with dry erase markers.

How to play:

- Count our 24 cards/boxes and spread them out face down so the picture of the box is facing up.
- Player 1 chooses a card/box by pointing to it, but not picking it up.
- Player 2 picks up the card/box and reads the word.
- Player 1 writes the word on their score board.
- Player 2 checks to see if the word is spelt correctly. If it is spelt correctly Player 1 gets 1 point.
- Player 1 then decides if they want to keep the card/box or discard the card/box. If Player 1 keeps the card/box they add or take away the points written under the word. If Player 1 chooses to discard the card/box the card/box is put aside, and no points are added or subtracted.
- Player 2 then picks a card/box and has their turn.
